### EXPERIENCE

---

- 2022 till date**      **Product Analyst (Payments & Collection products – Transaction Banking)**  
**Union Bank of Nigeria PLC**
- Reviewed documentation such as Business requirement documents, for API integration and product/process improvements, and service level agreements for partnerships
  - Managed KPI dashboards for periodic monitoring of product/budget performance
  - Conducted market analysis, and review of customer transactional data to drive business intelligence, towards increasing the bank's share of customer wallet (mainly in collections and Tax payments)
  - Drafted business proposals for prospecting new customers
  - Managed customer relationships through onboarding, identifying, and resolving customer disputes
- 2019 – 2022**      **Product Manager (Merchant Acquiring)**  
**FirstBank Nigeria Limited**
- Managed a N220 billion merchant collection business covering Lagos, Western and Northern Nigeria (90% growth over 2years)
  - Drafted and reviewed documentation such as Business requirement documents (BRDs), standard operating procedures, and service level agreements for product/process improvements, partnerships and regulatory or control requirements
  - Analyzed new product offerings, including competitive environment, to identify key patterns and trends, resulting in the sustenance of the banks market share
  - Implemented revenue assurance program resulting in recovery of \$100k dollars in both lost revenue and excess costs (I have expert knowledge of Acquiring P&L)
  - Managed the Bank's relationship with industry stakeholders (card schemes, NIBSS, PTSPs, PTADs, Switches & Payment processors, Telcos)
  - Deployed a business process automation project which resulted in a 1-hour (daily) time saving, freed manual resources for other tasks, and helped the Bank meet regulatory requirements
  - Implemented data management procedures which improved asset utilization/tracking by 50% within 3 months
  - Identified and converted potential sales leads for our digital products working with the relationship team
  - Created KPI dashboards for monitoring daily and weekly product/budget performance
- 2018 – 2019**      **Research Intern**  
**NISER (Political and Governance Policy Research Department)**
- worked as part of a research team that designed field studies and mapped out stakeholders, as part of the annual departmental research program.
  - Researched and published a paper on the [failure of governance and violent extremism](#) in line with departmental research goals.

### EDUCATION

---

**2016 – 2017**      **Master of Science: Organic Chemistry;** University of Ibadan, Ibadan

**2010 – 2014**      **Bachelor of Science: Industrial Chemistry;** University of Ibadan, Ibadan
